

## PRECOURSE WORK

### INNOVATIVE HEALTH SOLUTIONS (IHS)

#### Aims precourse work for IHS

The aim of the precourse work is to prepare you a bit for the course. From your precourse work, your fellow students will get some ideas of everyday life and health issues in your home country.

Your contribution is intended to trigger discussions and comparisons of conditions for health care provision. During the course, ideas for innovative solutions may evolve from this initial discussion

#### Prepare at home for Thursday 1.9.2022:

##### **1. Presentation: A short (max. 4 min.) introduction and story about:**

1. *Four pictures of things I am proud of in my country and*
2. *Four pictures of things I am not so proud of in my country*

##### **2. Reflection as preparation for group discussion: Consider some issues you find challenging to health or health care in your country:**

1. *What issues could be relevant to address?*
2. *What is the challenge, and the background for the challenge?*
3. *What are the implications for the health professionals and for the patients / citizens use of the health care and daily life?*
