## WHAT IS THE MATCHMAKING ABOUT?

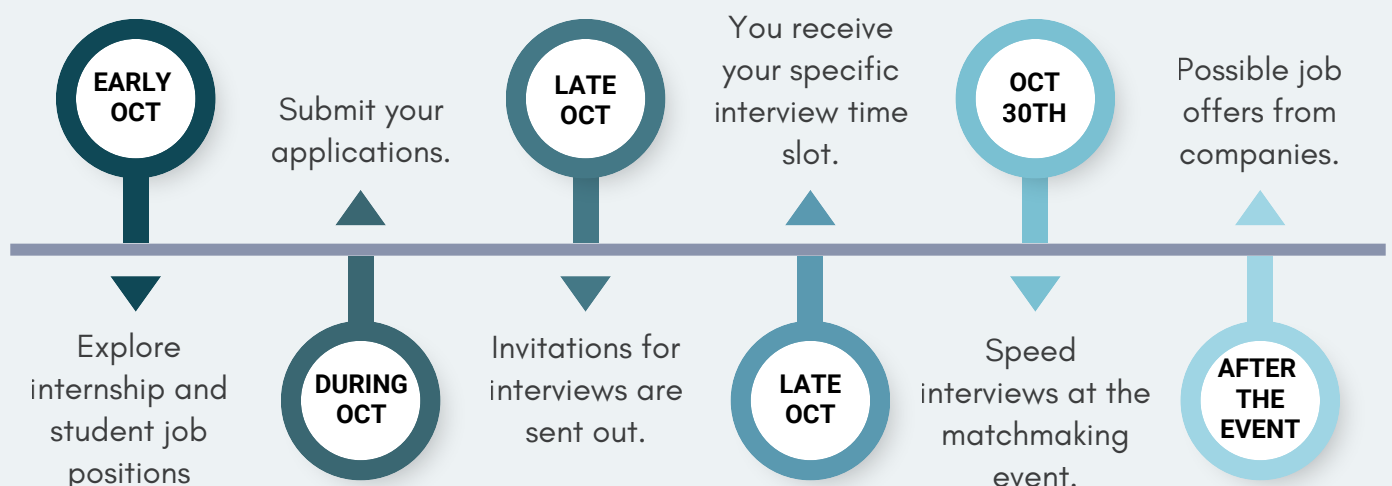

Matchmaking is one focused day where students and companies meet to find the right match. Through a series of short 20 minutes interviews, you might get the chance to present yourself and explore real opportunities for student jobs and internships.

**The event takes place on Wednesday, October 30th at Professionshøjskolen Absalon, Campus Kalundborg 3.**

In the morning, the focus is on student jobs, while in the afternoon, the spotlight is on internships.

## HOW THE MATCHMAKING PROCESS WORKS

During October, companies will publish available internship and student job positions. Your task is to explore the postings, identify the opportunities that fit your profile, and submit your applications. If a company invites you for a speed interview, you will be notified and later receive the exact time slot for your interview. On October 30, the Matchmaking Event takes place, where you will meet the company representatives for your scheduled speed interviews. Following the event, companies may offer positions directly to the selected students.

*\* Links for the job positions will be sent directly to your student email, or you can find them on your local educational institution's website.*

*\*\* Not all companies will attend the Matchmaking event, so you might be invited to a job interview at another time and place.*
