

## **Internship in Kalundborg**

Are you interested in applying some of the learnings from your engineering degree into an exciting project in an international consulting company?

Do you want to work with highly skilled colleagues helping us develop designs of new facilities?

Then we may have an exciting internship opportunity for you.

This internship is a great opportunity to develop and learn new relevant skills within the pharmaceutical industry.

### **Primary Duties and Responsibilities:**

We are currently looking for an intern to join our department of Process Utility in the spring period of 2023.

You will be a part of a department with many passionate engineers working with following utilities within pharma and biotechnology:

Clean-in-Place (CIP)

Clean Utilities (Clean Steam, clean gasses, pure water systems)

Black Utilities (plant steam, cooling & heating systems, compressed air),

Waste (biowaste, kill, neutralization, exhaust)

We are responsible for designing and selecting the needed equipment to support the production in pharmaceutical facilities. We typically work with specifications, selection and procurement of utility equipment, PFD (Process Flow Diagrams), P&ID (Process & Instrument Diagrams) creation and update and component specifications, but also support other disciplines for example with HVAC (ventilation), EHS (safety), 3D models, quality risk assessments, qualifications and test activities and trouble shooting.

To get a better understanding and knowledge about what we do at NNE, please visit our home page <https://www.nne.com/>

### **Required Qualifications:**

- You are in the later phases of a relevant engineering education within chemistry, biotechnology, pharmaceutical production, mechanical engineer, or marine engineer (maskinmester)
- You write and speak English. Danish and other languages will be considered an advantage
- You are open minded and really like to communicate and work together with many people
- You are efficient and curious, and you have a sense of quality as well as being service minded
- You are able to take the initiative and work by yourself
- You master desktop software like Word and Excel. Knowledge of Microsoft Visio is also an advantage

If you have any questions about the job, please contact Department Manager Tommy Alfast, +45 30 79 64 14.

Please submit your application online. Please note that we only accept applications submitted via our online system.

**Deadline of application is 16/10/2022**
