

Courses and grading system for exchange students

University College Absalon offers international English, German or French speaking courses for Danish and exchange students from partner institutions. A description of these courses are to be found at Absalon's webpage <https://en.phabsalon.dk/> - Exchange – Teacher Education Package (TEP).

Exchange students are not to take any official exams, except from internship exam that includes a presentation of portfolio. Exchange students will however get a grade that will be added in an appendix to the student's Transcript of Records. The grade is based on the Danish grading system with a clear explanation of what the given grade is equivalent to, according to European grading systems and ECTS.

The grades will be based on an overall assessment on the basis of academic level and the student's engagement and involvement in their stay at the teacher education.
