

Worth knowing if you receive SU (State Educational Grant)

You are responsible for ensuring that the information, which you provide for your SU supervisor and the SU Agency, is correct. Therefore, you must inform us in case of changes that may affect your SU.

As from the summer of 2016 there are increased demands regarding progress in higher educations.

If you have started on your Study programme after 1 July 2016, you are only allowed to be 6 months late in your education before your SU payout is stopped.

Payment of the SU is based on the ECTS points or the equivalent, which you have earned. This means that the use of SU-grants is compared with reports from the study administrative systems regarding study progress measured in ECTS points (or equivalent). The payment of the SU will automatically terminate if no sufficient ECTS points have been registered, that is to say; If you are delayed more than 6 months in your study.

Your responsibility

How much can I earn in addition to my SU.

There is a limit as to how much you are allowed to earn next to your SU (your free pass (fribeløb)). If you earn more than this free pass, you will have to repay some of your SU and possibly SU loans. The size of your free pass depends on how many months of SU you have received in a year. It also has something to do with whether you have had leave during the year, whether you have received other public support or have deselected SU for a few months.

Kilometerpenge (Kilometer allowance)

If you drive to and from your place of education in a car, you can apply for “kilometer allowance” if you have a long transport or transport time or if there is no public transport between your place of residence and your place of education. Kilometer allowance covers a portion of your actual expenses for transportation by car.

You have the opportunity to get extra SU if you have children before you start your education or while you have been on leave from your education

In order to receive extra SU, you must have become a parent at the earliest:

- no more than 12 months before the education starts or is resumed after leave - **if you have become a mother**
- no more than six months before the education starts or is resumed after leave - **if you have become a father**

Handicaptillæg (Disability allowance)

If you have a permanent mental or physical disability, you can apply for a disability allowance next to your SU. In order to get the disability allowance, you must both meet the general conditions for obtaining SU and some special conditions related to the disability allowance.

SU-Supervisors

If you can't find an answer to your question at www.su.dk, you can send an email to the SU supervisor at your place of education. In addition to your question, please remember to provide your name and study number as well as a phone number where we can contact you during daytime if we need further information. Applications and attachments can be handed in at the Frontdesk at your place of education.

For safety reasons, the SU supervisor only answers emails from students, which have been mailed via Absalon mails – **SO REMEMBER ALWAYS TO MAIL VIA YOUR ABSALON MAIL-ADDRESS.**
